

Create a CDS view for Sales order header and Sales order item with some fields

Sales Doc Item fields from table VBAP with alias

| |
|-----------------------|
| VBELN as SalesOrder |
| POSNR as SalesItem |
| Matnr as Material |
| NETWR as ItemNetValue |
| WAERK as ItemCurrency |

Sales Doc Header fields from table VBAK with alias

| |
|----------------------|
| Vbeln as SalesOrder |
| Erdatt as CreatedOn |
| Vbtyp as DocCategory |
| Auart as OrderType |
| AUGRU as OrderReason |
| Netwr as NetValue |
| WAERK as DocCurrency |

Create an association with Cardinality [0..*] from Sales order header CDS view to Sales Order item CDS View.
